Theme			
CI theme: (Write about the semester theme ‘Resource Mobilization’ in your language.) (50-150 words)	Resource mobilization increases public awareness of an issue and their understanding of it as well as the solutions being employed to address it. Mobilization of society is an effort to coordinate the human, material, financial, and other resources required for progress in society while also enabling people of all ages to identify their needs, rights, and responsibilities, as was made clear to us during the semester through the topic.		01
Group/Individual theme: (What was your theme? Why did you take this theme?) (150-250 words)	Our project based on the animals and organisms under the sea are being harmed as a result of marine pollution through metaphors. The world's ecosystem depends on the ocean. And if the ocean gets polluted the sea will become a huge dump yard. So, it's our responsibility to protect mother nature.		02

We know the majority of the waste that ends up in the ocean comes from land and is washed or blown into it, which contributes to marine pollution. This pollution harms the ecosystem, the health of all living things, and global economic institutions. Oceans slowly decline over many years, using oxygen in the process, which reduces the amount of O₂ present. Sharks, penguins, dolphins, and other marine animals die because of low oxygen levels in the water. No marine pollution, please. Marine pollution is severely harming our eco-diversity. In order to save our plants, we must get rid of marine pollution.

And Thus, Princess Ariel has nowhere to stay.....

Message:
Our project based on the animals and organisms under the sea are being harmed as a result of marine pollution through metaphors. The world ecosystem depends on the ocean. And if the ocean gets polluted the sea will become a huge dump yard. So it's our responsibility to protect our mother nature.

Summary of work:
We will make a gorgeous mermaid. This mermaid will carry some kind of symbol representing sea life, animals, plants. And we will create pollution symbols by inflow of chemical, solid waste, releases of radioactive materials, agricultural and industrial effluents, industrial effluents, and many other similar factors. We will act out our project.

Why this message:
We know the majority of the waste that ends up in the ocean comes from land and is washed or blown into it, which contributes to marine pollution. This pollution harms the ecosystem, the health of all living things, and global economic institutions. Oceans slowly decline over many years, using oxygen in the process, which reduces the amount of O₂ present. Sharks, penguins, dolphins, and other marine animals die because of low oxygen levels in the water. No marine pollution, please. Marine pollution is severely harming our eco-diversity. In order to save our plant, we must get rid of marine pollution.

Group Name: Tokai (টোকাই)

Designed By: Syed Sadman Sakib (221012012)
Samia Hasan Athay (221012065)
Sheikh R Raslew (221012059)

Artwork

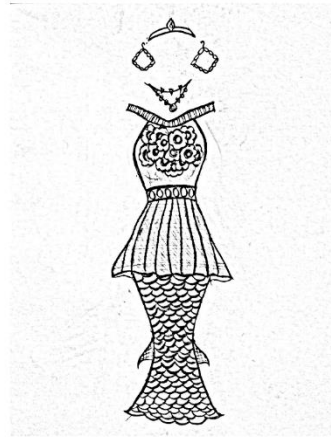

Layout & Plan:

(Attach the image of your layout)

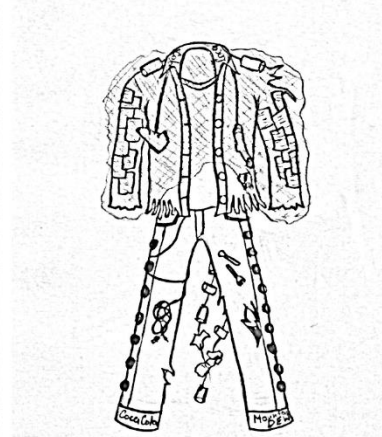

(Why and what kind of fashion did you want to do?)

(150-250 words)

"And then, Princess Ariel has nowhere to stay..."

(Mermaid)

(Trashman)

There will be a couple of models, where the female model will represent the ocean as a mermaid and the male model will represent pollution as a trashman. Thus our theme represents the polluted ocean, where the mermaid is a metaphorical symbol of the living objects of the ocean. The female model will wear a gown made of different kinds of trash such as, cotton bud, bottle caps, plastic, CD parts, net, straws, chips packets, foil paper etc. She will carry a crown on her head, necklace as well as earrings.

And the male model, who is representing pollution, will wear a jacket made of trashes like bottles' stickers, cans, newspapers, net, torn shoes, socks etc. He will wear a pant which will be embedded with medicine paper, one time cups/spoons, silver plastics etc.

This concept will showcase the pollution and the harm that is caused over the ocean.

Production:

(Please write about the production process of your work from the beginning including materials you used, the place you worked at, any obstacles you faced, any improvisation you did, and the result that came out at the end.)

(Please attach some images of your production process.)

(300-400 words)

At first, we decided on our team. We know our potential. So, we distributed our work equally. I was the director of the production. The first obstacle we faced was a place to work. There was no place for us to work together. So, I finally decided to provide my home as our workplace. Team management was a challenge for me. I had to distribute the work and the material management. My team was very interactive. They played their role very well. The designer first made a layout then we discussed a layout of the plan. Do we have the materials for our work? Are they enough for our work? These are the questions we had. Then we listed our materials and told everybody to bring them on time. The second obstacle was budget and shopping for basic tools. We decided on a budget and the manager bought all the tools. Then the day of work came. My home was in Mirpur and my group members were from Mohammadpur and Demra. So, it was difficult for them to come to my place. But they came and worked very hard for the production. Ultimately the challenge was the show day. We had to make everything perfect for the performance. The models were very cooperative with me. They gave their full effort to the showcasing process. Then our challenge was dress management. The costume we made was not very strong to

04

move. So we had to fix the costume every time they came back from the stage. So that was the most challenging work for us. But we overcame all our obstacles and made the show successful. Ultimately I am satisfied with the result we had. The outfit came out really cool. So thanks to my group members and my faculty for the opportunity.

Exhibition

Exhibition:

(Where was the show, how was that platform, who were the spectators, was any other platform better for the show, and why?)

(150 -250 words)

(Please attach some images/screenshots of your final work and show)

The Trashion show is a course project of convergence communication-1 exhibited at the auditorium of Ulab research building on the 8th of April, Saturday. The course is being instructed by A F M Moniruzzaman Shipu, an assistant professor in the ULAB Department of Media Studies and Journalism (MSJ). Raisha Naushin was the assistant instructor of the program and the entire decorating and lighting were done by the art and photography club. The students showcased their group project on a red carpet with their fabulous trash-made costumes. Professor Imran Rahman, vice chancellor of the University of Liberal Arts in Bangladesh, attended the program as a special guest. And Professor Jude William Genilo, pro-vice-chancellor, and head of the MSJ Department at the University of Liberal Arts Bangladesh was a distinguished guest. Overall, this program fulfilled the purpose of the show. Everyone in the hall was impressed by the outstanding message and innovative idea of expression.

Feedback

04

(Please interview 5 people and ask the same 5 questions to each person to fill up the table below.) (Please edit question number 5 with your message in it, before you send the questions to your interviewee.)		
Question	Answer	
Interviewee: 1		
1. Please tell me your name and profession (in detail).	Name: Israt Mehezamin Laboni	Profession (in detail): Branch Manager at Padakkhep (NGO)
2. Please tell me what message you get after seeing my artwork, or is it very confusing and very hard to understand?	The message of the artwork is very clear to me. The art and the performance of the art indicate the pollution of the ocean. Mermaid indicates the lives in the ocean and the trash man is the pollution. And the pollution is killing living things in the ocean. We should save our ocean.	
3. If you get any message, which clues have helped you to understand the message?	The mermaid is a very clear representation of all ocean creatures. And the net in the trashman's costume represents marine pollution and the theatrical act tells us how it impacts our environment.	
4. Does this artwork look common or does it look extraordinary to you? If it looks unique or creative to you, what kind of	I have never seen this kind of showcase. I think it's a very unique and creative work. Providing a social message by a show is really unique.	

uniqueness do you find in this work?		
5. I wanted to tell you (write your message here). Have you found this message in this artwork? If my message could be more visible in it, please suggest it to me.	The artwork is very nice. The message is clear. And the show is very beautiful. I liked it.	
Interviewee: 2		
1. Please tell me your name and profession.	Name: Jaynto kumar kundu	Profession (in detail): Director at Film Monks Art House
2. Please tell me what message you get after seeing my artwork, or is it very confusing and very hard to understand?	I can clearly see the artistic intent behind the work. The performance of the art and the art itself reveal the ocean's pollution. The trash guy represents pollution, and the mermaid represents life in the ocean. Additionally, pollution is causing the death of marine life. We ought to protect our ocean.	
3. If you get any message, which clues have helped you to understand the message?	The act of Trash Man taking the Mermaid with him helped me understand the message of the art.	

4. Does this artwork look common or does it look extraordinary to you? If it looks unique or creative to you, what kind of uniqueness do you find in this work?	The artwork is not so common. In the costume, I liked the usage of a CD disc in the mermaid’s costume that tells the beauty of the ocean. The main concept of the artwork is a message of sustainable development. But the uniqueness of the work is spreading the message through metaphoric art.	
5. I wanted to tell you (write your message here). Have you found this message in this artwork? If my message could be more visible in it, please suggest it to me.	Real creatures of the ocean can be implemented in the costumes. I think that would connect the audience more.	
Interviewee: 3		
1. Please tell me your name and profession.	Name: Shithe Debnath	Profession (in detail): Producer at Film monks art house
2. Please tell me what message you get after seeing my artwork, or is it very confusing and very hard to understand?	The work's artistic purpose is very clear to me. Both the artist's performance and the art itself demonstrate the contamination of the water. The mermaid stands in for aquatic life, and the trash man for pollution. Additionally, marine life is dying as a result of pollution. We must protect our ocean.	
3. If you get any message, which clues have helped	The one-time Plates and the use of spoons in the head of the mermaid helped me to understand the message. I have personally seen people throwing plates and plastics into the ocean.	

you to understand the message?		
4. Does this artwork look common or does it look extraordinary to you? If it looks unique or creative to you, what kind of uniqueness do you find in this work?	The project was extraordinary. The overall storytelling process was very unique and creative.	
5. I wanted to tell you (write your message here). Have you found this message in this artwork? If my message could be more visible in it, please suggest it to me.	The artwork is very appreciated. But the act could have been more interactive with the audience. It was pretty otherwise.	
Interviewee: 4		
1. Please tell me your name and profession.	Name: Anirban Saha Arpon	Profession (in detail): Research head and Assistant Director at film monks Student of Ulab MSJ department.

2. Please tell me what message you get after seeing my artwork, or is it very confusing and very hard to understand?	The artwork was clear and metaphoric but understanding. The trash man is the marine pollution that tries to pollute the marine resources and the mermaid was the representation of ocean life.
3. If you get any message, which clues have helped you to understand the message?	The expressions of the characters helped me to connect with the artwork more. And the costumes were also very interactive.
4. Does this artwork look common or does it look extraordinary to you? If it looks unique or creative to you, what kind of uniqueness do you find in this work?	The artwork was not common. The metaphorical character was the most unique part of the artwork.
5. I wanted to tell you (write your message here). Have you found this message in this artwork? If my message could be more visible in it, please suggest it to me.	The artwork is excellent. The point is well-made. Additionally, the spectacle is stunning. But the theme is so broad a part of the marine pollution was presented, not all of it. The work could be more interactive.
Interviewee: 5	

1. Please tell me your name and profession.	Name: Sadia Nisha	Profession (in detail): Student at Jagannath University Theater Department
2. Please tell me what message you get after seeing my artwork, or is it very confusing and very hard to understand?	The artwork had a very obvious message. It provided a thorough understanding of marine pollution and how it affects the ocean.	
3. If you get any message, which clues have helped you to understand the message?	Their costume provided a clear indication of the sentiments they want to convey. It made it a lot easier to comprehend the artwork.	
4. Does this artwork look common or does it look extraordinary to you? If it looks unique, what kind of uniqueness do you find in this work?	The artwork, in my opinion, is fantastic. One of the trashion show's greatest pieces of art, in my opinion. The original aspect of the artwork was the concept of portraying the mermaid as the entire sea. I thought the artwork was quite original. The most intriguing aspect of the artwork was the extremely precise consumption-related intricacy.	
5. I wanted to tell you. Have you found this message in this artwork?	I believe the point was well conveyed. We don't need to make any further recommendations.	
Realization		07

(Have you got all the feedback from the audience as you expected? Did the viewers get your message? Please explain the reasons why or why they did not get your message. What have you realized about your succession at the end? How should you do the fashion if you want to do it again? What were the strengths of your work? Why? What were your faults? How can you avoid your faults next time? What is your thought about this project?) (400-500 words)	The trashion show event showcased a creative and unique approach to raising awareness about the issue of ocean pollution and the need to protect marine life. After conducting interviews with multiple attendees of the show, it is evident that the artwork and performances had a clear and impactful message that resonated with viewers. All interviewees agreed that the artwork was unique and creative, with recycled materials used to create outfits that promote sustainable fashion. The event was seen as an inspiring way to raise awareness about environmental issues and encourage others to take action. All the interviewees appreciated the usage of metaphoric art to spread the message of sustainable development. They found the artwork to be unique and creative, with a clear message about ocean pollution. The act of the trash man taking the mermaid with him symbolized the death of marine life due to pollution, and the need to protect the ocean. They suggested that real creatures of the ocean could be implemented in the costumes to connect with the audience more. The student interviewees found the artwork to be interesting and thought-provoking. They appreciated how the designers used their creativity to send a message about environmental conservation. They felt that the show was a great way to raise awareness about the importance of sustainable living and that it had the potential to inspire people to take action toward protecting the environment. In terms of the uniqueness and creativity of the artwork, all interviewees had positive responses. They found the show to be very unique and creative and appreciated the social message it conveyed. The use of recycled materials to create the outfits and the performance of the models was seen as a creative and inspiring way to promote sustainable fashion and raise awareness about environmental issues.
--	---

	I would organize the production properly if I do this show again. My team was my strength. Whatever they did they always listened to the leader's words. I will try to avoid my faults in my next project. I learned how a team works with projects in different work fields. Overall, the trashion show was a creative and effective way to promote environmental awareness and the need to protect our planet. Through the use of artistic expression and creative approaches, it was able to convey a clear and impactful message that resonated with viewers. As we continue to face environmental challenges, events like this serve as a reminder of the importance of taking action to protect our planet and promote sustainability.
Total	25

Learnings and Outcomes (Self-reflection):

- I learned how to design and build a costume using only recycled and waste materials.
- I can now explain how marine pollution harms ocean ecosystems.
- I understood how fashion and performance can be used to spread an environmental message.
- I learned how to work with a team of 8 members as a leader and manage tasks, budget, and deadlines together.
